

## Why should I install a CCTV camera system?

A visible CCTV (Closed Circuit Television) system can provide a deterrent against theft, violence and vandalism to your property, staff or customers. CCTV can be used for home security, provide staff surveillance, allow you to control access to your property and help you to catch thieves!

Once an incident has been captured on CCTV, it can provide acceptable evidence for a prosecution by the Police or in support of an insurance claim.

## Why should PCMAN install my CCTV system?

**PCMAN** provide straightforward, jargon free advice on CCTV products and services to homeowners, businesses, property management companies, retail outlets and shops, taxi firms, bus companies and offices. We supply, free, no obligation quotations for CCTV equipment and installation.

As we are not tied to any manufacturer, we can provide impartial advice on the best CCTV system to install for your circumstances. We can provide professional advice on where to place cameras and provide training on how to use the system.

"Better Safe than Sorry"

**Protect your property from robbery and vandalism,  
and identify genuine incidents of unauthorized entry**

**Intruder detection**

**Video surveillance gives you the ability to quickly and  
easily view events in multiple areas of your premises**

**CCTV and video surveillance**

**Restrict access to sensitive areas, and effectively  
manage employee movements**

**Electronic access control**

## PREVENTION

**Intruder/ Burglar Alarm System**

**Smoke/ Heat Detectors**

**Surveillance Camera**

## DETECTION

**Intruder/ Burglar Alarm System**

**Smoke/ Heat Detectors**

**Surveillance Camera**

## PROTECTION

**Fire Extinguisher**

**Safe room & Lock system**

**Sprinkler System**

## Benefits of a CCTV System

**A: Deterrence** - potential burglars and thieves will see the camera and decide that the home in question is not worth the risk and therefore not a good target

**B: Fear reduction** - as everyone knows that there is a camera; it helps them feel safer in the area. When people feel safer it has been proven to prevent potential criminals from attacking. This gives peace of mind to the homeowner that not only is their property safe, but so are their loved ones.

**C: Prosecution** - thieves and criminals can be caught on camera and this can help catch and prosecute them

This approach provides the homeowner with the ultimate criminal deterrent that is both visible and effective.

Home CCTV is also increasingly becoming more popular as a cost-effective way of protecting outdoor areas, such as driveways and gardens from intrusion and other crimes.

## Services

Whether you're in the market for a new system or you're looking to improve, repair or replace your existing system, you'll find our reputation for service speaks for itself.

Our Services Include:

- Onsite Service of PC or Standalone based DVR & Security Cameras
